

**Amendments to the Claims:**

This listing of claims will replace all prior versions and listings of claims in the application:

**Listing of Claims:**

1. (ORIGINAL) A convection oven for use in a vehicle, having an oven cavity with an air inlet and an air outlet, an air feed conduit for feeding an air feed into the oven cavity through the air inlet and a heating arrangement for heating the air feed before it is fed into the oven cavity, the heating arrangement ~~comprising a heating device that is electrically powered and being~~ arranged to maintain a temperature of at least 130°C in the oven cavity and having first and second heating devices, said first and second heating devices comprising:

an electrically powered heating device; and

a further heating device;

wherein said first and second heating devices are located so that in use the air feed is heated by said first and second heating devices in series.

2-3. (CANCELLED).

4. (CURRENTLY AMENDED) An oven according to claim 2, ~~in which~~ wherein one of said first and second heating devices comprises electrically powered heater elements which are located within the an air feed ~~conduit~~ conduit.

5. (CURRENTLY AMENDED) An oven according to claim 1, ~~in which~~ wherein the first heating device and/or the second heating device can be connected to a vehicle motor and can be powered ~~thereby~~ by the motor vehicle.
6. (CURRENTLY AMENDED) An oven according to claim 1, ~~in which~~ wherein the first and second heating devices can be powered by power means present on a vehicle motor.
7. (CURRENTLY AMENDED) An oven according to claim 1, ~~in which~~ wherein at least one of the first and second heating devices comprises a combustion device for generating hot combustion gases which can be used to heat the air feed.
8. (CURRENTLY AMENDED) An oven according to claim 7, ~~which comprises~~ further comprising heat exchange means for passing the hot combustion gases in heat exchange relationship with the air feed.
9. (CURRENTLY AMENDED) An oven according to claim 1, ~~which further comprises~~ comprising a control device arranged to permit regulation of said first and second heating devices to obtain a desired temperature ~~with~~ within the oven cavity.
10. (CURRENTLY AMENDED) An oven according to claim 1, ~~which further comprises~~ comprising adapter means arranged to permit at least a part of the heating arrangement to be selectively supplied with mains power when desired.
11. (CURRENTLY AMENDED) An oven according to claim 1, ~~in which~~ wherein the arrangement is such that the oven cavity can be maintained at a temperature of at least 150°C.
12. (CURRENTLY AMENDED) An oven according to claim 1, ~~in which~~ wherein the volume of the oven cavity is not more than 0.15m<sup>3</sup>.

13. (CURRENTLY AMENDED) An oven according to claim 1, ~~in which~~ wherein the heating arrangement can generate a temperature of at least 130°C when the oven contains 10kg of food in individual portions of about 400g.
14. (PREVIOUSLY PRESENTED) A vehicle comprising an oven according to claim 1.
15. (CURRENTLY AMENDED) A vehicle according to claim 14, ~~which~~ wherein the vehicle is powered by an internal combustion engine.
16. (CURRENTLY AMENDED) A vehicle according to claim 14, ~~in which there is provided~~ comprising a combustible fuel.
17. (CURRENTLY AMENDED) A vehicle according to claim 14, ~~in which~~ wherein the vehicle has an internal combustion engine and the oven is eatable in part from an electrical current derived from said engine.
18. (CURRENTLY AMENDED) A vehicle according to claim 14, ~~which comprises~~ comprising two ovens.
19. (CURRENTLY AMENDED) A vehicle according to claim 18, ~~in which~~ wherein each oven comprises a respective heating and control arrangement.
20. (CURRENTLY AMENDED) A vehicle according to claim 18, ~~in which~~ wherein the ovens are heated by a common heating arrangement.
